At what points does a person become ineligible for employment, housing and financial aid in the UK – and how did borders ever get so selective? Discussion-based forum will explore the meaning of the current UK system for migrants and asylum-seekers in Bristol, and the different ways forced destitution is already being politicised. Direct action; campaigning; hospitality networks; publishing other peoples' testimony – we will think through the hidden implications of trying to 'resist' in obvious ways, and try and unpick some of the clashing ideas around the 'freedom of movement'. This will be a dialogical session, aiming to explore our own assumptions as well as those of the 'system.' Well-informed, baffled or curious, come with an open mind and a willingness to grapple with a bit of complexity.
